### LOAD RITE WARRANTY - UTILITY / HEAVY-DUTY Models

LOAD RITE Trailers, Inc. (LOAD RITE) warrants each new LOAD RITE UT/EQ/CH/DP model trailer it manufactures to be free from defects in materials and workmanship. LOAD RITE will cover all frame and structural weldments to be free from defects in materials and workmanship for two (2) years and all other components for a period of one (1) year from date of purchase by the original consumer, except as noted below. Cosmetic surface corrosion on the trailer, are not covered. This limited warranty is not transferrable.

Certain components on LOAD RITE trailers are considered wear items including, but not limited to: tires; steel deck surfaces; bearings; seals and races; and brake friction surfaces. These items must be inspected, maintained and replaced by the owner as necessary. Wood deck material, bearings and seals are covered for 120 days from date of purchase. This limited warranty is not transferrable.

LOAD RITE will repair or replace, at its option, without charge, any parts found to be defective due to defects in material or manufacturing when the parts and/or trailer are returned at consumer's expense to an Authorized LOAD RITE Dealer or authorized repair center as designated by LOAD RITE. Pre-Authorization is required for all warranty work. This limited warranty is not transferrable.

Provisions of this warranty shall not apply to any trailer or component that is found to be modified or altered from its originally shipped condition in any way. This warranty does not cover damage, defect or malfunction caused by Acts of God, riot, war, unreasonable use or failure to perform reasonable and necessary maintenance, misuse, overloading the trailer beyond stated capacities, as well as improper use or use beyond the design limitations of the trailer. Trailers used as part of a rental fleet are not covered by this consumer warranty.

ANY IMPLIED WARRANTIES, OBLIGATIONS OR LIABILITIES, INCLUDING BUT NOT LIMITED TO, AND IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PURPOSE, SHALL BE LIMITED TO THE TERM OF THIS WRITTEN WARRANTY. LOAD RITE TRAILERS, INC. SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESSED OR IMPLIED.

No transportation charges or related expenses (such as loss of time, inconvenience, travel expenses, lodging, telephone, gas, towing charges, loss or damages to personal property or loss of wages) are covered by this warranty.

This warranty complies with the "Magnusson-Moss Warranty Federal Trade Commission Improvement Act" limited warranty provisions and any provisions of this warranty or actions taken by LOAD RITE pursuant to this warranty shall be construed accordingly. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

This warranty is validated by the submission of the Warranty Registration card included below OR by the completion of the Warranty Registration through other various electronic means as provided by LOAD RITE Trailers, Inc. It is the responsibility of the original purchaser to submit this warranty within 30 days from the date of purchase. Failure to submit this notification within the time provided will relieve LOAD RITE Trailers, Inc. from any responsibility under this warranty.

*Effective March 1, 2018*

## ON THE ROAD TO PROPERLY MAINTAINING YOUR *LOAD RITE*

### UTILITY / HEAVY-DUTY MODEL TRAILER:

- ◆ Refer to your Owner's Manual and [www.loadrite.com](http://www.loadrite.com) for even more maintenance information.
- ◆ *LOAD RITE* recommends **regular** maintenance as follows:
- ◆ Lights, wiring, coupler action, safety cables, ramp latches, and lug nut torque should be checked **before each use**.
- ◆ Balance the load for proper distribution of axle and tongue weight for safe trailering. Once balanced, fully secure load to deck and cover as required.
- ◆ Recommended lubricant, NLGI #2 EP lithium complex based high temperature wheel bearing grease, should be applied via the grease fitting on or within the hub bearing cover or on the hub itself **monthly**.
- ◆ All fasteners should be checked for proper tension.
- ◆ Drum brakes should be checked and adjusted based on usage.
- ◆ Recommended ***maintenance to be performed annually*** is to ***include all of the above in addition to*** the following:
- ◆ Annual maintenance should involve the disassembly, cleaning, inspection, and repacking of all wheel bearings with the recommended lubricant, NLGI #2 EP lithium complex based high temperature wheel bearing grease. It is recommended the inner seal and retaining hardware be replaced any time the hub assembly is removed from the trailer. Bearings and races should be replaced when exhibiting wear or discoloration.
- ◆ All moving parts within the brake drum should be inspected for wear and free movement, and lubricated as needed. Brake shoes should be inspected to assure they are clean, dry, free of any contaminants, and not worn below their serviceable limit. Serviceable limit is commonly considered 3/32" from top of rivet to pad surface.
- ◆ Frames, axles and all hardware should be visually inspected for rust, damage, and fractures.
