High Capacity Boat Trailers

LOAD RITE OFFERS LONGER, HIGH-CAPACITY BOAT TRAILERS

Load Rite has developed a series of trailers capable of handling boats **up to 40' in length** and having a towable weight* **up to 18,000 lbs.** in both galvanized steel and aluminum I-beam construction.

These models feature upgraded frames and structural components with 7k torsion axles and heavy-duty bead-balanced galvanized wheel assemblies. As with every large Load Rite trailer, each comes standard with disc brakes, radial tires, stainless I-beam frame hardware, LED lights, heat-shrunk wire connections, carpeted bunks, manual winch*, low-bow support**, and tongue jack.

There are plenty of options from which to choose: spare tire and carrier, aluminum wheels, stainless brakes and brakelines, plastic covered bunks, sideguides, and more.

Type	Max. Boat Length	Maximum Capacity	Axle System	Brake System	Tire / Wheel	Bunk Type	Winch*	Low-Bow Support**
Galvanized Steel	37'	17,400 lbs.	7k GAWR, Torsion, Disc	Electric Over Hydraulic	ST235/R16E	AB	3,200 lbs., Strap	Optional
