PONTOON WINCHSTAND WITH LADDER OPTION

With the popularity of pontoon boats exploding on the marketplace, and the graying of potential buyers, Load Rite has developed a 5-step winchstand loaded with features to make accessing the pontoon deck from the ground easier and safer for everyone.

The **bottom step** is conveniently located below the level of the tongue, an easy reach for all. Each step is covered with **non-skid traction tape** to help prevent against slips and falls from wet soles. The **curved grab rail** provides stability for all ages while climbing steps and traversing to the deck.

Upgrade your inventory to Load Rite's feature filled premium winchstand and make the pontoon and trailer package more desirable to potential buyers.
